§ 2915.01. Definitions.

(AAA) (1) "Skill-based amusement machine" means a skill-based amusement device, such as a mechanical, electronic, video, or digital device, or machine, whether or not the skill-based amusement machine requires payment for use through a coin or bill validator or other payment of consideration or value to participate in the machine's offering or to activate the machine, provided that all of the following apply:

(a) The machine involves a task, game, play, contest, competition, or tournament in which the player actively participates in the task, game, play, contest, competition, or tournament.

(b) The outcome of an individual's play and participation is not determined largely or wholly by chance.

(c) The outcome of play during a game is not controlled by a person not actively participating in the game.

(2) All of the following apply to any machine that is operated as described in division (AAA)(1) of this section:

(a) As used in this section, "task," "game," and "play" mean one event from the initial activation of the machine until the results of play are determined without payment of additional consideration. An individual utilizing a machine that involves a single task, game, play, contest, competition, or tournament may be awarded prizes based on the results of play.

(b) Advance play for a single task, game, play, contest, competition, or tournament participation may be purchased. The cost of the contest, competition, or tournament participation may be greater than a single non-contest, competition or tournament play.

(c) To the extent that the machine is used in a contest, competition, or tournament, that contest, competition, or tournament has a defined starting and ending date and is open to participants in competition for scoring and ranking results toward the awarding of prizes that are stated prior to the start of the contest, competition, or tournament.
