FISCAL OFFICER  
Ronald L. Smith

December 15, 2016

Dear Canton Township Resident:

This is an update regarding the City Water Project.

We have been in frequent contact with the City of Canton regarding bringing city water to the residents of Canton Township. In our last communication with the City of Canton, we were informed that the cost to supply water to Canton Township was higher than previously anticipated. The cost could be up to 30% more. At this point, the City of Canton and the Board are exploring avenues to reduce the cost. Once we have confirmed numbers, we will schedule a public meeting to which you will receive notice.

Thank you for your continued patience as we work diligently in getting a fair price for the residents of Canton Township and, as always, please feel free to contact any of us with your questions or concerns.

Very truly yours,

William G. Mittas, President

Christopher B. Nichols, Vice President

William C. Smith, Trustee
